

Hey kids,

Your sneaky leprechaun friend has returned again! So let the hunt for him and his pot of gold begin.

He's left behind clues for you to follow around. Complete them one by one to see if he can be found.

Your first clue starts now so give this search a try. Go look at the thing you twist when it's time to leave the house and go bye-bye.

Good Luck!

The leprechaun was able to escape with his pot full of gold.

So look for your next clue where it is so VERY cold.

You missed him again. Oh gosh, he is just so fast. Hurry where you put the dirty clothes that you wore last.

Gone again! That guy is just too quick!

See if you can find hiding in what you use when you need a sip.

He got away again without even a peep.

Look under the thing your head lays on when you sleep

You solved the clue but the leprechaun is nowhere in sight.

Next go to the spot you keep the things you use to write.

5

The quick little guy was here for a second and then away he flew.

I think his next hiding spot is in a stinky old shoe.

6

Gone again! Wow, that small fellow is so fast and tricky.

Where would you go to wash up when you smell and are very yucky?

7

That leprechaun is so mischievous and has already left with the quickest of haste.

Hurry, see if you can find him where your picked up toys are placed.

8

You just missed him. He sure can get out of here with the fastest speed.

Now see if you can find him in the place you keep all of the books that you read.

9

Oh no! The leprechaun was able to escape, but he can no longer gloat.

He accidentally left behind some of his treasures where you hang your coat.
